BX-Series Explosion Proof Electric Actuator

The quarter-turn electric BX-series explosion-proof actuator is an alternative to the rack and pinion actuator, utilized when an air supply isn't available. It is also used when flame-proof and combustible dust-proof enclosures are specified.

Certifications

- CSA for hazardous locations
- AEx/Ex
- UKCA II 2GD
- ATEX II 2GD
- RoHS
- REACH

Features

- Self-locking gear system
- Mechanical position indication
- Built-in thermal protection
- Clutch-less manual over-ride (for safe operation, the handwheel does not rotate during operation)
- Standard anti-condensation heater to prevent the freezing of lubricants and keep interior dry to prevent damage from moisture (heater not recommended if ambient temperature is over **68°F** or **35°C**)
- Enclosure features
 - Aluminum alloy, polyester powder coated, corrosion protection C3 according to ISO 12944-6
 - NEMA 4X and IP68 (waterproof and dustproof enclosure 7m, 72hrs)
- Gear train features
 - High alloy steel gear trains with self-locking to avoid backlash
 - Gear trains are factory lubricated for life
- Motor features
 - Insulation class F
 - Built-in thermal protection prevents motor burnout
 - AC motor: 257±9°F (125±5°C)
 - DC motor: 194 ± 9°F (90 ± 5°C)

Specifications

- Standard connections: ISO 5211 mounting flange
- Working temperature range: **-22°F to 158°F (-30°C to 70°C)**
- Working relative humidity range: 30% to 95%
- Options
 - Heater thermostat
 - Can switch the anti-condensation heater off when the temperature inside the actuator is higher than **77±9°F (25±5°C)**
 - Auxiliary limit switches
 - Actuators come standard with two limit switches (LS1 for fully-open and LS2 for fully-closed positioning)
 - Two auxiliary limit switches are optional for fully-open and fully-closed position feedback
 - Modulating control
 - A proportional control unit
 - Analog signal input: 4-20mA, 1-5V, and 2-10V
 - Analog signal output: 4-20mA and 2-10V
 - Potentiometer unit
 - Recommended to use with a floating control actuator to output signal for position indicator
 - Two resistors, 1K ohm or 5K ohm are available for selection
 - Current position transmitter
 - Can provide 4-20mA output signal for position indication

Notes

Limited Warranty

DIXON VALVE & COUPLING COMPANY, LLC (herein called "Dixon") warrants the products described herein and manufactured by Dixon to be free from defects in material and workmanship for a period of one (1) year from date of shipment by Dixon under normal use and service. Its sole obligation under this warranty being limited to repairing or replacing, as hereinafter provided, at its option any product found to Dixon's satisfaction to be defective upon examination by it, provided that such product shall be returned for inspection to Dixon's factory within three (3) months after discovery of the defect. The repair or replacement of defective products will be made without charge for parts or labor. This warranty shall not apply to: (a) parts or products not manufactured by Dixon, the warranty of such items being limited to the actual warranty extended to Dixon by its supplier; (b) any product that has been subject to abuse, negligence, accident, or misapplication; (c) any product altered or repaired by others than Dixon; and (d) normal maintenance services and the replacement of service items (such as washers, gaskets, and lubricants) made in connection with such services. To the extent permitted by law, this limited warranty shall extend only to the buyer and any other person reasonably expected to use or consume the goods who is injured in person by any breach of the warranty. No action may be brought against Dixon for an alleged breach of warranty unless such action is instituted within one (1) year from the date the cause of action accrues. This limited warranty shall be construed and enforced to the fullest extent allowable by applicable law.

Other than the obligation of Dixon set forth herein, Dixon disclaims all warranties, express or implied, including but not limited to any implied warranties of merchantability or fitness for a particular purpose, and any other obligation or liability. The foregoing constitutes Dixon's sole obligation with respect to damages, whether direct, incidental, or consequential, resulting from the use or performance of the product.

Some products and sizes may be discontinued when stock is depleted or may require a minimum quantity for ordering.

Limits of Liability

This brochure is intended as a product offering. It is not intended to be a user or technical manual. Information in this brochure is subject to change without notice. All users and distributors of products sold through this brochure should contact Dixon with questions of use, compatibilities, coupling procedures, and life of product. Our full-time engineering and test staff are always available to recommend uses and to assist distributors and users with any questions.

Safety

Safety logos, which appear throughout our catalog, are used as a reminder that the user should carefully review for the appropriateness of the product for the media, application, and environment in which it will be used.

NOTE: Because of the health hazards associated with contamination and lead content in drinking water systems, Dixon couplings, unless otherwise specifically approved, are not recommended for potable water service and should not be used in applications where drinking water will contact the wetted surfaces of the coupling.

All Dixon products are shipped in cartons with the following warning:

"WARNING: This product contains lead, a chemical known to the State of California to cause cancer and birth defects or other reproductive harm."

Trademark

Delrin® and Zytel® are registered trademarks of E. I. du Pont de Nemours and Company.

Kalrez® is a registered trademark of DuPont Dow Elastomers.

All other trademarks appearing in the Dixon illustrated product list are the property of their respective owners.
